

Smeg WD6010

Large capacity medical washer disinfector

ARTG 194412

Features

- Smeg WD6010 Washer Disinfector offers the latest generation of electronics with full touch screen for reliability and outstanding performance.
- Smeg WD6010 WD has a 12 DIN wash capacity, capable of large loads with pull down double glass door operation.
- Smeg medical washer disinfectors are compact, fast, ergonomic, providing reliable wash results.
- Smeg WD6010 washer disinfector features a TFT colour touch screen on both sides of the unit, which can be programmed with 20 default and 20 custom programs.
- Smeg WD6010 offers washing up to 95°C for antibacterial thermal disinfection.
- Smeg WD6010 medical washer disinfector has function protection by different level passwords, a USB port for downloading of wash cycles log and an optional integrated built-in panel printer.
- Smeg WD6010 features a high pressure hot air drying system with double absolute 99.999% HEPA filters for hygienic, efficient drying.
- High efficient Ecoslim steam condenser as optional, top and bottom chamber spray arms and interlocking doors for complete separation are just some of the high end features you can expect from Smeg's WD6010 Italian manufactured washer disinfector.
